EXPERIENCE

Eskwelabs Education Innovation Fellowship (EIF) Intern - Cohort 7	July 2025 - September 2025
CEO's Office EIF Projects: End of Sprint Analysis	
- Designed and built data pipeline prototypes that automate Typeform survey data to Google Sheets using Google Apps Script and n8n, which transform data into an organized table for efficient access, helping the Operation of Project Management for the company's End of Sprint Analysis. - Participating and collaborating in hands-on learning sprints with more than 10 EIF members, designing publications, website UI/UX, and data visualization.	
Edukasyon.ph Graphic Design Intern	July 2025 - Present
- Crafted more than 15 bulk publications and assets for Admin and Business to Consumer projects using Canva, Adobe Photoshop, and Figma, including deliverables in collaboration with GOBI. - Co-designed with more than 10 EDK team members and the EDK Brand Manager for campaigns such as EDK Club Time, Wikasaysayan, Balarila Bites, and Holiday Publications.	
KadaKareer KadaKamp - Cohort 9	July 2025
Capstone Project: "ID-entity Crisis: A How-To for the Chronically Undocumented"	
- Co-developed a digital literacy advocacy project focused on helping community members navigate eGovPH and Philippine government ID processes; produced 8 educational publications in one week, including digital tutorials and step-by-step guides for BIR TIN and NBI Clearance. - Drove community engagement and outreach, growing the project to over 200 followers in one week and earning the Kontagious Award for impact and effective public education.	
Student Financial Aid Grant (SFAG), DOLE SPES Scholarship	September 2025 - Present
Student Assistant - Registrar's Office, Ayuntamiento de Gonzales, DLSU-D	
- Completed more than 136 office duty hours, supporting enrollment, registration, and general registrar transactions. - Sorted, organized, and encoded over 100 student application files, collaborating with 10 SFAG members to ensure accurate record-keeping and efficient processing.	

PROJECTS

CareerCove Project Manager, Full-Stack Developer	September 2025 - December 2025
Python, JavaScript, React, Tailwind, FastAPI, PostgreSQL, Microsoft Azure, Docker, Doccano	
- Researched, designed, and implemented core features, including Job Hub, Resume Parser, Smart Data Matching, Career Filter, Analytics Dashboard, Bookmark & Tracking System, and Document Repository. - Trained over 100 resumes in Doccano to support a NER model and scraped 2,000+ job listings from Kalibrr, JobStreet, and Indeed to enable semantic similarity search. - Developed a solution that helps fresh graduates find specialization-aligned roles, achieving a 4.48 mean score ("Strongly Agree") and demonstrating high compliance with ISO/IEC software quality standards.	
Personal Web Portfolio Full-Stack Developer	December 2025
JavaScript, React, and Tailwind CSS	
Designed, developed, and deployed a responsive web portfolio using JavaScript, React, and Tailwind CSS, featuring dynamic sections to showcase projects, tools, and professional experience.	
Mabillis Frontend Lead, UI/UX and Brand Developer	July 2025
Top 8 Finalists in Hack4AProgress - Department of Science and Technology (DOST)	
- Led frontend, UI/UX, and brand development, contributing to the research and ideation of key features including LGU Dashboard, Invoice Generation, and Tax Debt Evaluation. - Designed the brand identity, pitch deck, and mobile application prototype using Figma and Canva.	
La Spot - DLSU-D Parking System Project Manager, Full-Stack Developer	Mar 2025 - May 2025
JavaScript, React, Node.js, MySQL Workbench	
- Led design and development of a responsive web-based parking system for DLSU-D, featuring User and Admin interfaces with full CRUD operations. - Implemented key features, including Parking Slot Registration, Vehicle Management, Account Authentication, and Vehicle History, ensuring a seamless experience for students, staff, and administrators.	

INVOLVEMENT

Chief Executive Officer	November 2025 - Present
DLSU-D Computer Science Program Council (CSPC)	
- Ascended to the Chief Executive Officer role after 6 months as Vice President, leading overall council strategy, operations, and executive coordination. - Developed prototype automation tools such as a dynamic event caption generator using n8n, Google Sheets, and Gemini AI, streamlining social media content generation - Represented the Computer Science student body in institutional meetings, event alignment and decision-making processes.	
Vice Chief Executive Officer	June 2025 - November 2025
DLSU-D Computer Science Program Council (CSPC)	
- Overseeing internal operations and workflow of over 50 council members, designed an efficient Discord and Trello workspace, and managed publications, social media, marketing, events, trackers, and calendar, while acting as the right hand of the Chief Executive. - Led 10+ officers and helped manage council events such as Panimola 2025, Specifi, Organization Recruitment, and Back to Basics: Build, Borrow, Bot!	
Multimedia Committee Head	September 2024 - May 2025
DLSU-D Computer Science Program Council (CSPC)	
Led over 15 members of creatives to design promotional materials, visual collaterals, manage social media content, and create visual assets for council events and projects, including the Interdepartmental Sportsfest, Codeyssey (Monthly Coding Competition), Back to Basics: RobotiCS 101, and Holiday Publications.	

CERTIFICATIONS

- TOEIC (Score: 810/990) - DOST - Hack4AProgress Top 8 Finalist (8/23 Teams) - Fresh START: Sustainable for a Renewable Technology - Hackathon - Introduction to SQL & Dockerization (DataCamp) - Data Analytics Essentials (CISCO) - Python & JavaScript Essentials 1(CISCO)	- Responsive Web Design (FCC) - EDSP Scholarship Grant (OWWA) - DataCamp Scholarship via Data Engineering Pilipinas, - Student Financial Aid Grant (SFAG) - DOLE SPES Scholarship - AWS BuildHERS+ Mentorship Initiative
